Better Roads. Safe Streets.

We All See and Feel It – Neighborhood Roads are Crumbling Throughout Fresno County

Crumbling roads, cracked pavement, and potholes are causing longer commutes, higher repair costs for drivers, slower emergency response times, and hurting local businesses.

This isn't just inconvenient – it's costly and unsafe. Every year we wait to repair our local roads and fix potholes, conditions worsen, and it becomes more expensive to make needed repairs.

Together, We Can Ensure Better Roads and Safe Streets

The campaign for Better Roads, Safe Streets is working to qualify for the November ballot. The ballot measure is needed to fix potholes and repair neighborhood streets without raising taxes while requiring strong citizen oversight and annual fiscal audits.

The Better Roads, Safe Streets Ballot Measure:

- **Keeps local tax dollars here, prioritizing projects thousands of residents say matter most:** repairing neighborhood streets, improving public transit, and creating safer corridors
- **Makes it quicker, safer, and easier for all of us to get from point A to point B,** regardless of whether we drive, take the bus, bike, or walk
- **Invests in making neighborhoods safer:** newer intersections, better lighting, and improved traffic signals to reduce crashes and protect drivers, cyclists, and pedestrians
- **Directs resources where they're needed most,** starting with neighborhoods that have the worst roads, most potholes, and fewest transportation options
- **Strengthens our economy** by investing in transportation projects that create good local jobs and help small businesses grow.
